COMPANY PROFILE

GM ENGINEERING & PROJECT, based in Ahmedabad, Gujarat, distinguishes itself as a forward-thinking steel fabrication company committed to providing an array of comprehensive services, including value engineering, design, drafting, project management, fabrication, and installation of steelwork projects. Our proficiency spans diverse sectors, encompassing the construction industry, petrochemical sector, and marine industries.

More than a conventional metal fabricator, **GM ENGINEERING & PROJECT** takes pride in its capability to seamlessly manage multiple projects and scopes concurrently. Our expertise in large-scale modularization stands as a testament to our innovative engineering approach, coupled with an unwavering commitment to achieving project success.

At the heart of our operations lies an unwavering dedication to total client satisfaction. We embrace a partnering approach to ensure that our contracts are executed on time, within budget, and to an exceptional standard of quality. Emphasizing core company values such as quality, service, and customer satisfaction, **GM ENGINEERING & PROJECT** consistently endeavors to develop solutions that not only meet but exceed client expectations. Our unwavering focus remains on delivering outstanding results while upholding the highest standards of professionalism and integrity.

INDUSTRIAL

OIL AND GAS

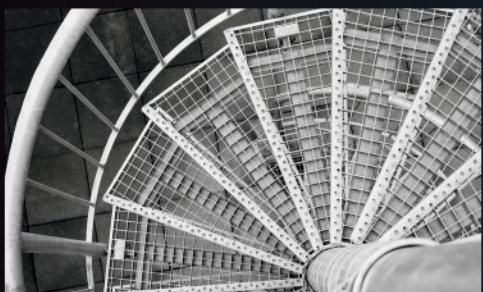

OUR PRODUCT

- HEAVY DUTY TROLLEYS / SKID FABRICATION
- SPECIAL PURPOSE TROLLEY FABRICATION
- WIRE MASH PALLETS/CAGE FABRICATION [RESISTENCE WELD]
- ROLLER CONVEYER FABRICATION & INSTALLATION
- CANTILEVER SLIDING DOOR INSTALLATION(MANUAL & MOTORIZED)
- CAR BODY STORAGE STRUCTURE FABRICATION & INSTALLATION
- GAS, WATER, AIR & CHEMICAL PIPE LINE INSTALLATION
- PAINTING JIGS (SS 304 & MS) DEVELOPMENT
- PAINTING BOOTH MODIFICATION & NEW INSTALLATION
- PT-ED NOZZLES DEVELOPMENT & MANUFACTURING
- ASH INSTALLATION FOR PAINT SHOP & WORK ZONE
- AIR DUCT FABRICATION & INSTALLATION
- PROFESSIONAL KITCHEN EQUIPMENT
- STRUCTURE FABRICATION AND INCOLALLADION,
- MATERIAL HANDLING EQUIPMENT
- STAINLESS STEEL TROLLEY.

STRUCTURAL STEEL FABRICATION AND INSTALLATION

GM ENGINEERING & PROJECT specializes in catering to all your fabrication and installation requirements across a spectrum of materials such as Mild Steel, GI, Stainless Steel, and Aluminum. Our commitment to excellence is reflected in the fusion of cutting-edge expertise, extensive field experience, and impeccable workmanship, allowing us to deliver outstanding solutions for major projects nationwide.

We take pride in our ability to fabricate and supply a diverse range of customized items, adhering to stringent quality systems with complete traceability to specifications. Additionally, our services encompass industry-standard finishes, including paint systems, powder coating, and hot-dip galvanizing.

In response to the exacting demands of our clients, we offer a comprehensive Structural Erection Service. Our services come highly recommended, thanks to our punctuality, adaptability, reliability, and client-centric approach.

At **GM ENGINEERING & PROJECT**, our site installation teams stand out as some of the most seasoned and proficient in the industry. Ensuring safe and efficient steel installation is paramount to our highly qualified site operatives, reflecting our unwavering commitment to excellence.

Our specialist skills encompass working on both large and small-scale structures, executing high-level finish architectural steelworks, and tackling challenging refurbishment projects with precision and adherence to tight tolerances. Trust **GM ENGINEERING & PROJECT** to meet your fabrication and installation needs with unparalleled expertise and dedication to quality.

STEEL STRUCTURES

- STRUCTURAL STEEL BUILDINGS
- PRIMARY AND SECONDARY STRUCTURAL STEEL WORK
- COMPLEX STRUCTURES
- BRIDGES & CANOPIES etc

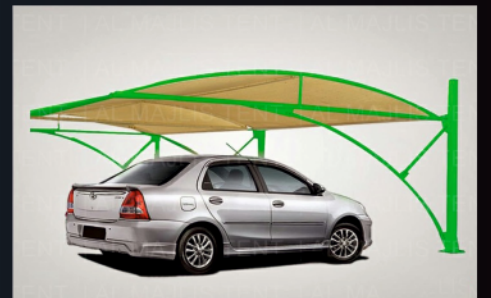

ARCHITECTURAL METAL WORK

- LADDERS
- HANDRAILS AND BALUSTRADES STAIRWAYS
- FENCES & GATES
- PLATE WORKS
- INDUSTRIAL PLATFORMS
- TRENCH COVERS AND GRATINGS
- BOLLARDS etc

TEMPORARY STRUCTURES / SITE MOBILIZATION WORKS

- MULTIPURPOSE SHEDS (WORKSHOP, STORE, MESS HALL, etc)
- CAR PARKING SHEDS
- PORTABLE CABINS FOR OFFICES / ABLUTION UNITS / TOILETS
- FENCE / HOARDINGS / GATE BARRIERS
- SIGNBOARDS
- STEEL TANKS (WATER TANK/SEPTIC TANK/DEWATERING TANK)
- WATER TANK TOWERS
- WASTE SKIP BUCKETS / MAN BASKET
- CONCRETE SHUTTERS / MOLDS
- CABLE TRAYS

STEEL PROCESSING /MACHINING SERVICES

Delivering quality on precise and complex projects can only be achieved with the application of the latest equipment and technologies, combined with a highly experienced and skilled workforce.

Our Processing services include:

- LASER CUTTING
- WATER JET CUTTING
- PLASMA CUTTING
- SHEARING
- BENDING
- ROLLING
- TURNING
- PUNCHING
- DRILLING

MECHANICAL & PIPING WORKS

We aim to provide specialist products and service repair solutions, not only to the Water, Oil, Gas and Petro-Chemical sectors, but additionally across a broad spectrum of other Plant and Piping Industries. Our team has extensive experience in design, fabrication and installation of all types of mechanical pipe work including Carbon steel, Stainless steel and Copper etc.

Our workshop facility has the capability of manufacturing prefabricated pipe work, custom or tailored components, and brackets and hangers to reduce costs and lengthy system down time.

We offer a range of pipe services including,

- Complete Commercial and Industrial mechanical installations
- Piping Fabrication including Skid Modular Units
- Large and Small Bore Pipe Prefabrications and Installations
- Steam and Thermal fluid Piping and Boiler Installations
- Stainless Steel Piping and Tubing and Food-grade Sanitary Piping
- Natural Gas and Propane Piping and Installations
- Medical Gas Piping and Process Gas Installations
- Hydraulic and pneumatic piping and controls
- HVAC
- Chilled Water Pipework (CHW)
- Condenser Water Pipework (CCW)
- Refrigeration
- Process Piping & Pipe Insulation etc.

MARINE, INDUSTRIAL AND PLANT SHUT DOWN PROJECTS

With a wealth of expertise, experience, and resources, **GM ENGINEERING & PROJECT** offers repair, maintenance, refurbishment, plant shutdown, fabrication, new building and engineering solutions to a wide customer base of marine and industrial clients.

Our diverse capabilities enable us to provide a single solution for industrial maintenance such as plant shutdowns, ensuring our clients maximize their output.

WHAT WE DO:

- Fabrication, welding works, modifications and maintenance at Marine and Industrial plant facilities
- Piping Installation / Modifications
- Plant Maintenance & Modifications
- Outages, Shutdowns, & Turnarounds
- General and Specialty Structural steel Services etc

WE SPECIALIZE IN SERVICING THE FOLLOWING MAJOR INDUSTRIES:

- Refining and petrochemicals
- Chemicals
- Oil and gas
- Power generation
- Marine
- Pulp and paper,
- Mining and minerals
- Manufacturing
- Water/Wastewater
- Processing Plants
- Desalination Plants

PROJECT SUPPORT SERVICES

GM ENGINEERING & PROJECT offers project-specific, multi-disciplined manpower and workforce solutions across diverse industrial sectors. In the face of increasing industry complexity and evolving project-specific demands, collaborating with specialized professionals becomes crucial. Opting for **GM ENGINEERING & PROJECT**'s manpower services ensures that each task within your project is undertaken by a qualified and certified workforce.

Our manpower strictly adheres to industry codes of safety and quality standards. Our team is composed of highly skilled professionals, including:

- Engineers
- Supervisors
- Pipe Fitters
- Welders
- Structural Fabricators
- Instrument Technicians

These experts are adept at efficiently navigating even the most intricate projects, ensuring a seamless journey from concept to delivery.

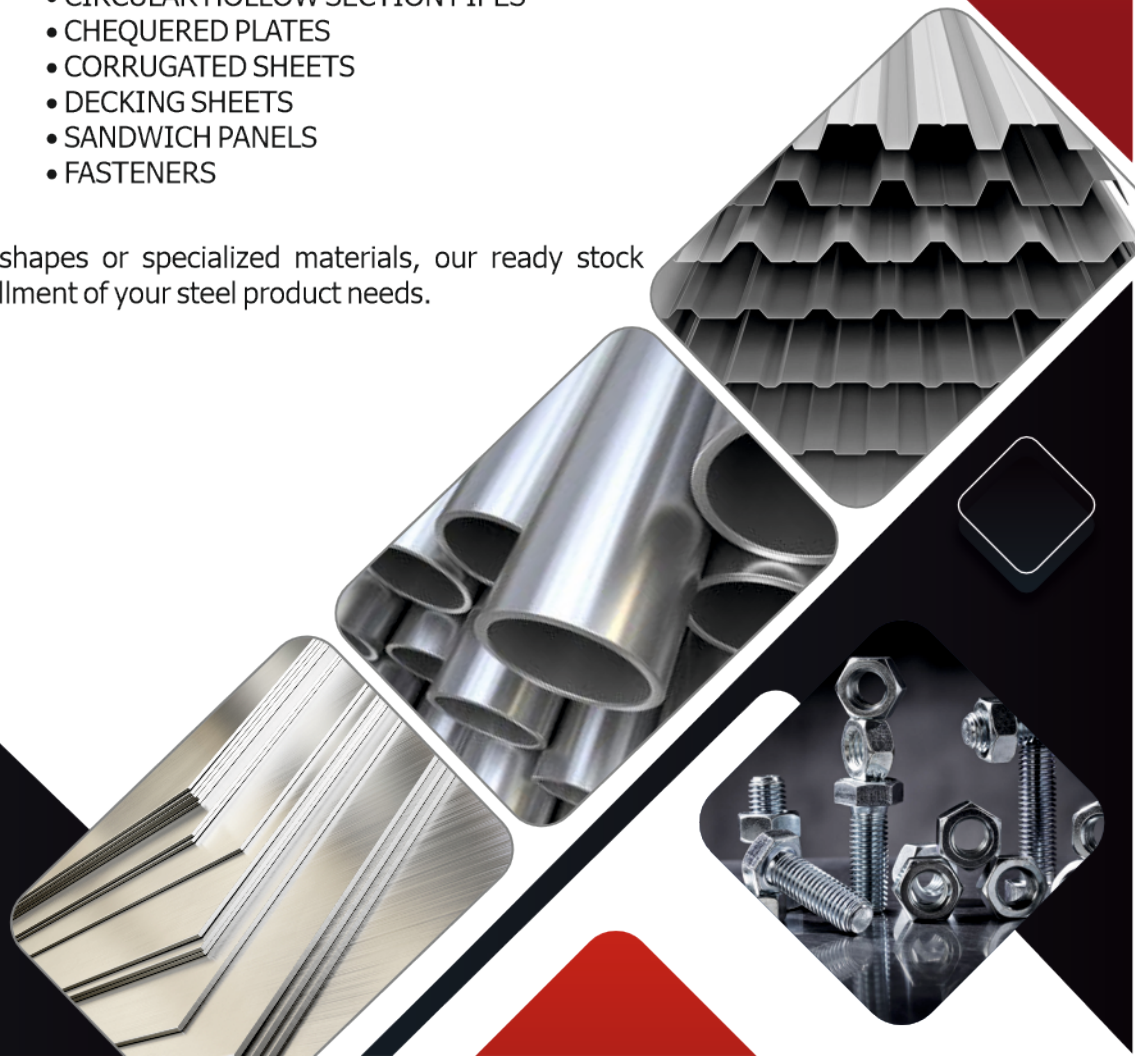

STAINLESS STEEL TRADING

We maintain an extensive inventory of stock steel products, ensuring swift delivery in various materials such as Mild Steel, GI, Stainless Steel, Aluminum, and more. Our diverse range of ready-to-ship steel products includes:

- BEAMS
- COLUMNS
- CHANNELS
- ANGLES
- PLATE
- FLAT BARS
- ROUND BARS
- SQUARE BARS
- SQUARE HOLLOW SECTION TUBES
- RECTANGULAR HOLLOW SECTION TUBES
- CIRCULAR HOLLOW SECTION PIPES
- CHEQUERED PLATES
- CORRUGATED SHEETS
- DECKING SHEETS
- SANDWICH PANELS
- FASTENERS

Whether you require standard shapes or specialized materials, our ready stock ensures prompt and efficient fulfillment of your steel product needs.
